**Truth-In-Savings Account Disclosure**

**A. Rate Information**

The dividend rate and annual percentage yield (APY) on your account is stated on page 1. The APY is a percentage rate that reflects the total amount of dividends to be paid on an account based on dividend rate and frequency of compounding for an annual period. The APY is based on the assumption that dividends will remain on deposit until maturity. A withdrawal will reduce earnings.

**B. Nature of Dividends**

Dividends are paid from current and available earnings after required transfers to reserves at the end of the dividend period. The dividend rate and APY are the prospective rates and yields that the credit union anticipates paying for the applicable dividend period.

**C. Compounding and Crediting**

Dividends will be compounded and credited as stated on page 1. The dividend period for this account is also stated on page 1. The dividend period begins on the first calendar day of the dividend period and ends on the last day of the dividend period.

**D. Accrual of Dividend**

Dividends will accrue on cash and non-cash deposits on the business day you make your deposit to your account. Accrued dividends will be paid periodically except during the month of maturity date when accrued dividends will be paid on the maturity date.

**E. Balance Information**

The minimum balance required to open each account is stated on page 1. Dividends are calculated by the daily balance method which applies a daily periodic rate to the principal in the account each day.

**F. Maturity**

Your account will mature within the term or at the maturity date stated above or the maturity date stated on your account maturity notice. You will have a grace period of 10 calendar days after the maturity date to withdraw the funds in the account without being charged an early withdrawal penalty.

- Early Withdrawal Penalty - We may impose a penalty if you withdraw any of the principal before the maturity date.
- Amount of Penalty - For Share Certificate Accounts, the amount of early withdrawal penalty of your account is 90 days dividends.
- How the Penalty Works - The penalty is calculated as a forfeiture of part of the dividends that have been or would be earned on the account.  
It applies whether or not the dividends have been earned. If the account has not yet earned enough dividends, or if the dividend has already been paid, the penalty will be deducted from the principal.
- Nontransferable/Nonnegotiable - Your account is nontransferable and nonnegotiable. The funds in your account may not be pledged to secure any obligation of an owner except obligations with Henrico FCU.

<sup>1</sup> Courtesy Pay, NSF or Overdraft Fee(s) may be imposed for overdrafts created by checks, in-person transactions, ATM withdrawals or by other electronic means.
